

INFINITE INNOVATION

SAFETY PROJECT MANAGER (M/F)

r2p GmbH has its headquarters in Flensburg. We develop and sell intelligent technology systems for the mobile sector with highest quality standards: CCTV, passenger counting, Infotainment and fleet management with real-time data transfer for rail and road vehicles.

Our closeness to Scandinavia is also reflected in our committed German-Danish team. We are very passionate about our work. The r2p team is characterized by a high degree of commitment, team-work, friendly manners and humor, placing a high value on good work-life balance.

We are looking for an experienced Safety Project Manager, who reports to the Head of Development and work closely with our Quality Department.
