

WEB DEVELOPER (M/F/D)

r2p GmbH has its headquarters in Flensburg. We develop and sell intelligent technology systems for the mobile sector with highest quality standards: CCTV, passenger counting, infotainment and fleet management with real-time data transfer for rail and road vehicles.

Our closeness to Scandinavia is also reflected in our committed German-Danish team. We are passionate about our work. The r2p team is characterized by a high degree of commitment, team-working, friendly contact form and humor, placing a high value on a good work-life balance.

For our new development team in **Kiel** we are looking for a web developer, who enjoys the freedom and challenges of building a new product, as much as, working for a fast growing world market leader.
